

Setup Your On-the-Go Personal AI Agent

DURATION

0.5 day / 4 hours

DELIVERY

Public open enrolment recommended •
In-house available on request

LEVEL

Introductory /
Practical

SUITABLE AUDIENCE

- Those amazed by AI but unsure how to use it well
- Those who want to use AI simply without learning deep tech
- Those who want a 24-hour working AI assistant
- Those who want to assign tasks by phone or browser
- Those who want to organise information, track tasks, and save time
- Those who want to build their own AI assistant or even an AI team
- Those concerned about hardware or cloud costs and want an easier start
- Non-engineers who want to genuinely benefit from AI

EXPECTED BENEFITS

- 01 Let AI start working for you, not just chatting with you
- 02 Have an AI agent that keeps working in the background
- 03 Learn to assign tasks clearly so the little lobster understands what you want
- 04 Start handling repetitive, time-consuming, and forgettable tasks to AI
- 05 Integrate AI into your daily workflow with a lower barrier
- 06 Use AI more securely, cost-effectively, and controllably
- 07 Move from "AI is amazing" to actually getting things done with AI
